About Mark Gevisser

Mark Gevisser is an empathetic and compelling storyteller. His book is situated between journalism and literature. He does not only write about the defeats and setbacks of the activists he portrays, but also about their successes in changing attitudes and reaching people's minds and hearts. This crystal-clear analysis and engaging reportage is a rewarding read, a reference work that will keep activists busy for a long time to come, and one that we hope will receive widespread attention, even beyond the LGBTI community.

The event will be held in English language without translation. There will be a Q&A after the book presentation.
